

Year 4 Maths Fluency Objectives

YEAR 4 MATHS TARGETS FOR PARENTS

As we are focusing on developing fluency in mental calculations, below are the relevant targets for your child's year group. These are to be achieved by the end of the year.

There are of course a whole range of other maths objectives that the children will also be learning about across the year, including those concerning other areas of number and place value, calculations, fractions, measurement, geometry and statistics.

We are aiming for a recall of facts within 3 seconds and without using fingers. This is the current national expectation for what children should be able to do.

MATHS TARGETS – YEAR 4

FLUENCY OBJECTIVES

Recall and use addition and subtraction facts to 20 fluently.

Recognise the place value of each digit in a 4-digit number.

Order and compare numbers to up to 10,000.

Round any number to the nearest 10, 100 or 1000.

Add/subtract 10, 100, 1000 to/from any number to 10,000.

Add/subtract mentally any pair of 2 digit numbers

Count in multiples of 6, 7, 9, 25 or 1000.

Recall multiplication and division facts for multiplication tables up to 12x12.

Multiply or divide whole numbers by 10 or 100.
