

## Year 2 Maths Fluency Objectives

### YEAR 2 MATHS TARGETS FOR PARENTS

As we are focusing on developing fluency in mental calculations, below are the relevant targets for your child's year group. These are to be achieved by the end of the year.

There are of course a whole range of other maths objectives that the children will also be learning about across the year, including those concerning other areas of number and place value, calculations, fractions, measurement, geometry and statistics.

We are aiming for a recall of facts within 3 seconds and without using fingers. This is the current national expectation for what children should be able to do.

#### MATHS TARGETS – YEAR 2

##### FLUENCY OBJECTIVES

Recall doubles and halves to 20.

Recall and use addition and subtraction facts to 20 fluently.

Recall and use times tables facts for the 2, 5 and 10 times tables.

Count in steps of 2, 3 and 5 from 0.

Count on and back from any 2-digit number in 10s.

Partition a 2-digit number into a number of tens and ones.

Add and subtract numbers using concrete objects, pictorial representations and mentally including:

- A 2-digit number and ones
- A 2-digit number and tens
